Introduction

- The Central Library of Calgary is an active and community-focused facility that provides services to thousands of its members through a broad collection of publications, digital resources, and events. To keep up with its rising demands, an accurate and scalable database system must be installed to automate library operations and improve user experience.

Overview

- **Mission statement**
- **Objectives**
- **Tables**
- **Relationships**
- **Feedback**

Mission statement

**The mission of the Central Library
Calgary is to serve our community by
making a vast array of books, and
resources easily accessible.**

Diversity of books

Easy accessibility

objectives

To manage the catalogue of books efficiently.

To facilitate user registrations and account management.

To provide reports for library management and decision-making.

Tables

program
data**

Supplier

Table structure

Branch table

Field	Data Type
Branch ID	INT (Primary key)
Branch Name	VARCHAR (200)
Address	VARCHAR (100)
Contact	VARCHAR (20)

Employees table

Field	Data Type
Employee ID	INT (primary key)
name	VARCHAR (200)
position	VARCHAR (100)
salary	VARCHAR (20)
Branch id	INT(foreign key)
Hired date	INT

Books

Field	Data Type
Book ID	INT (primary key)
Title	VARCHAR (200)
Author	VARCHAR (100)
ISBN	VARCHAR (20)
Publish Date	Date
Branch ID	INT

Issue status

Field	Data Type
Issue ID	INT (Primary)
Book id	INT(FOREIGN)
Customer id	INT(FOREIGN)
Issue Date	DATE
Due date	DATE
status	VARCHAR

Customer

Field	Data Type
Customer id	INT (primary key)
Name	VARCHAR (200)
email	VARCHAR (100)
phone	VARCHAR (20)

Return status

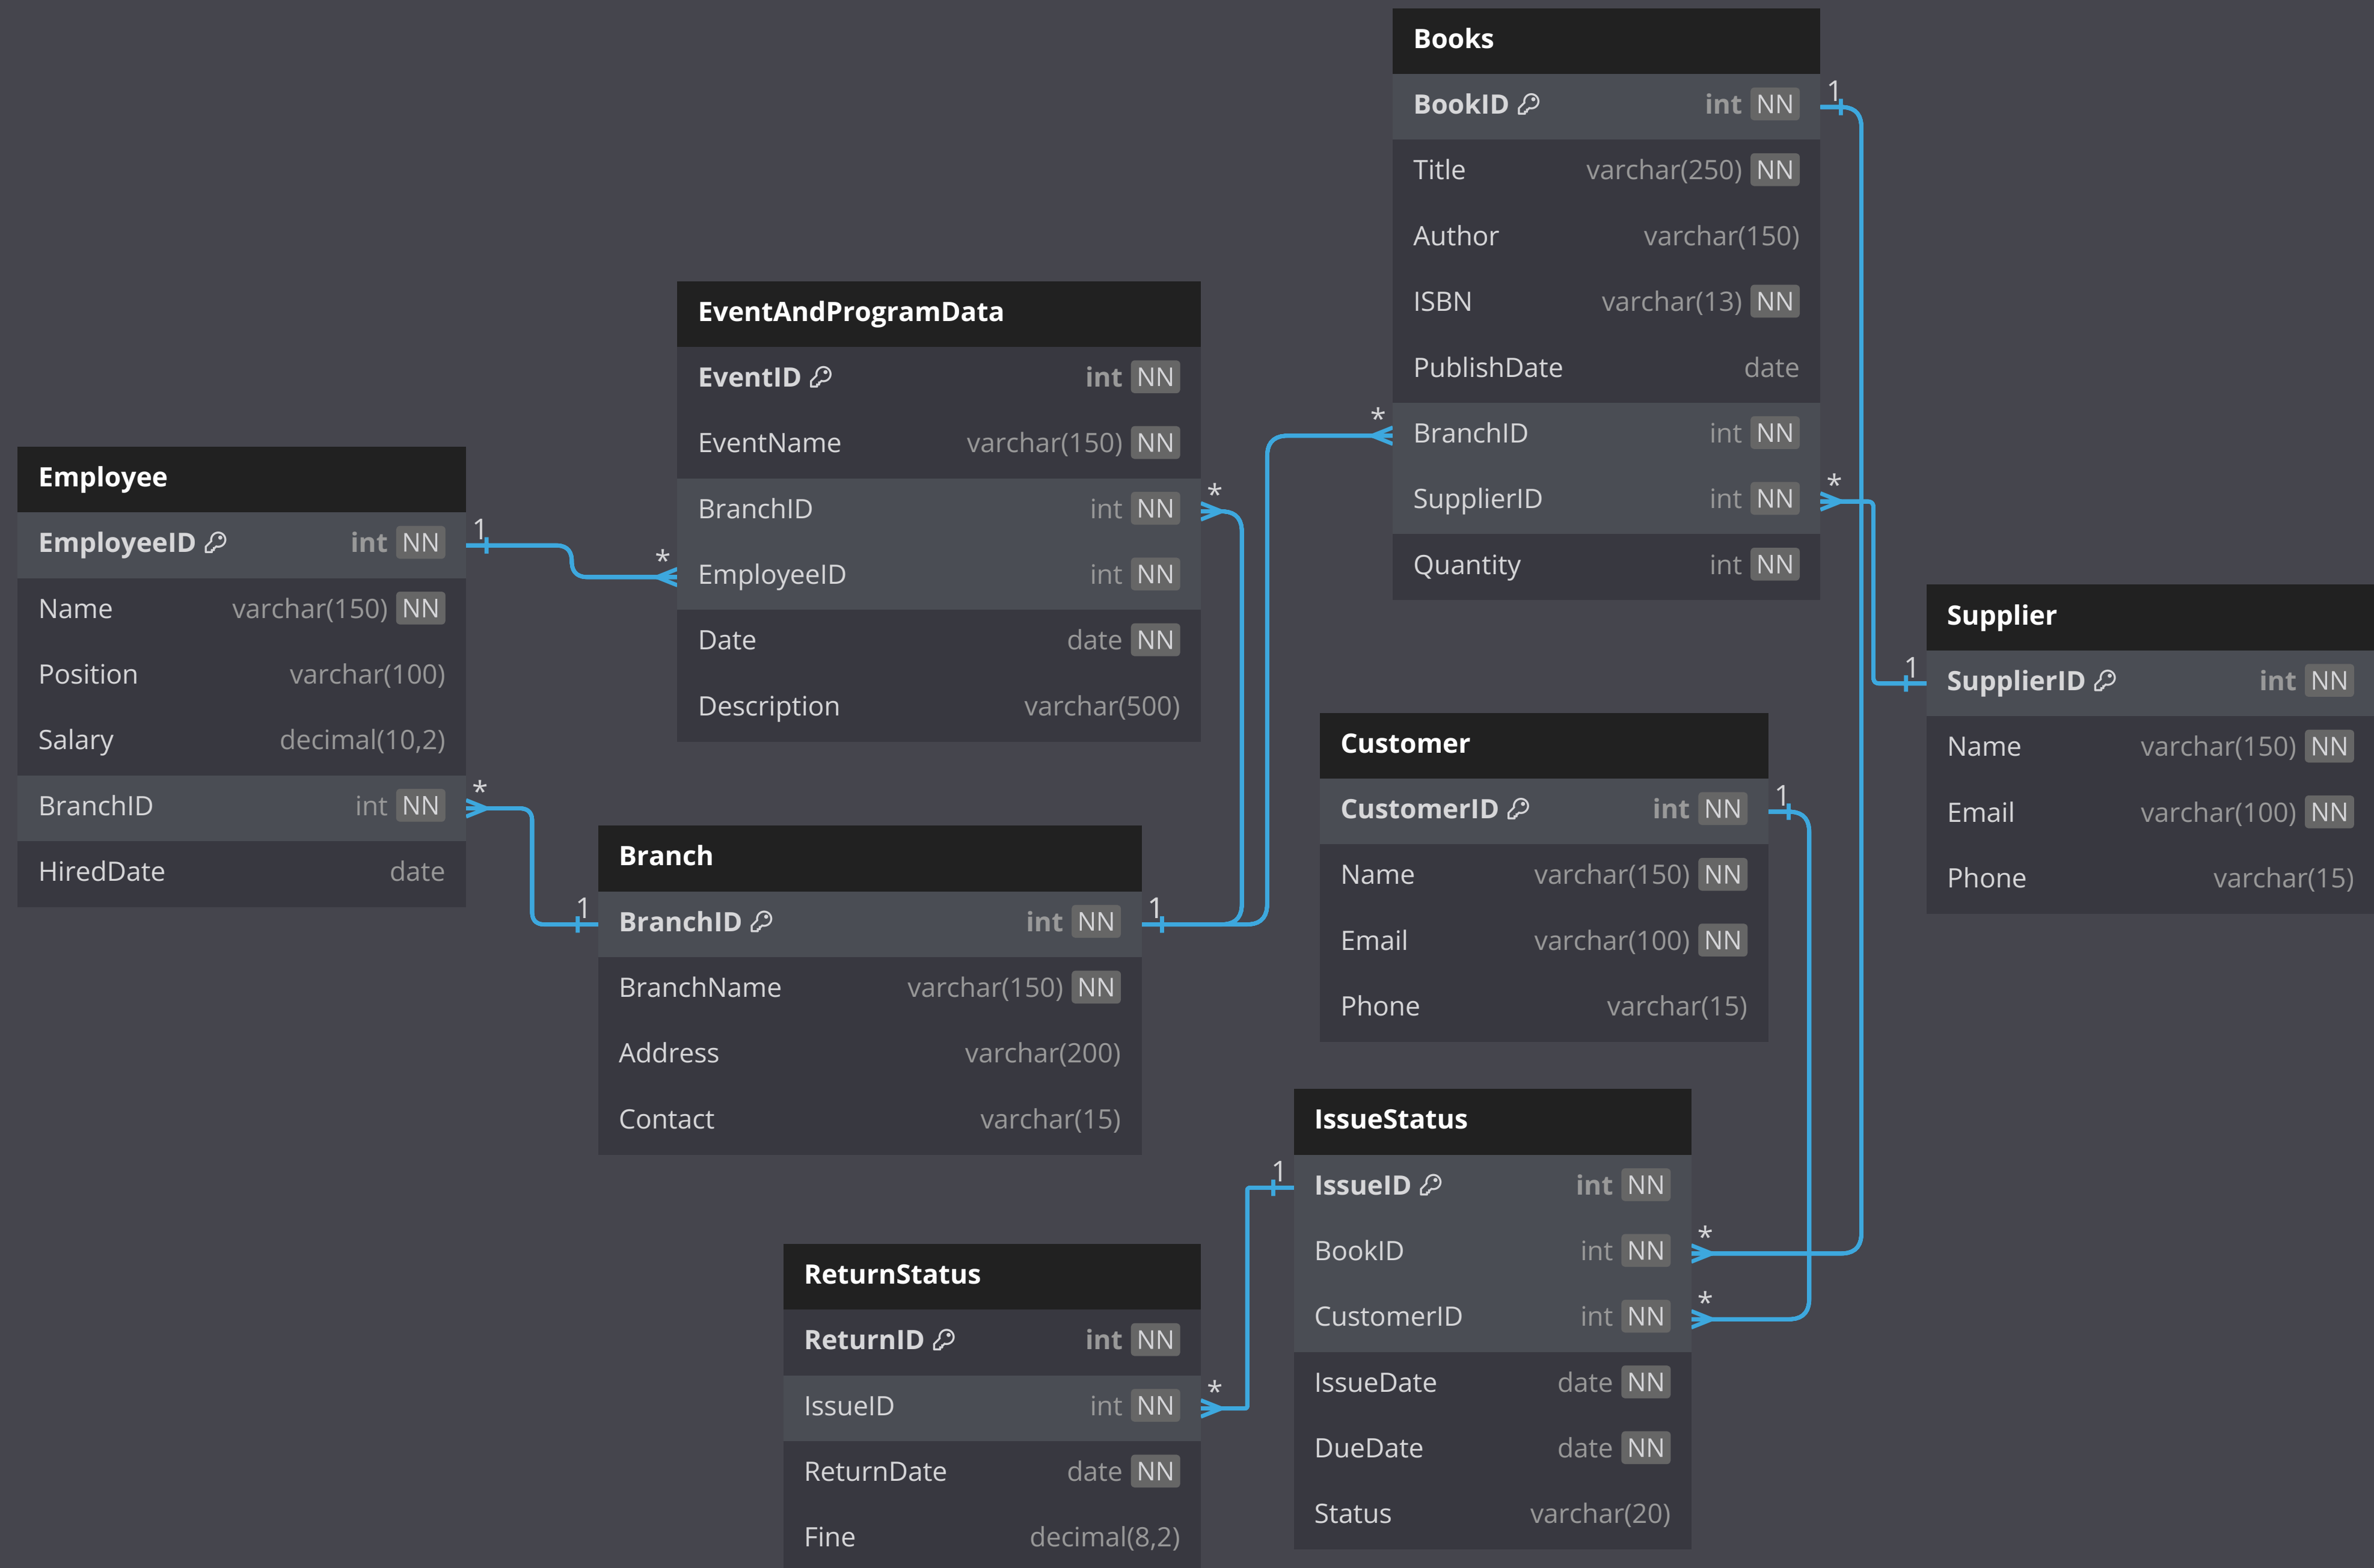

Field	Data Type
RETURN ID	INT (PRIMARY)
ISSUE ID	INT(FOREIGN)
RETURN DATE	DATE
FINE	DECIMAL

EVENT AND PROGRAM DATA

Field	Data Type
EVENT ID	INT (Primary)
EVENT Name	VARCHAR (200)
BRANCH ID	INT(FOREIGN)
DATE	DATE
DESCRIPTION	VARCHAR

SUPPLIER

Field	Data Type
SUPPLIER id	INT (PRIMARY)
Name	VARCHAR (200)
email	VARCHAR (100)
phone	VARCHAR (20)

For example:-

The screenshot displays the MySQL Workbench interface. On the left, the 'CONNECTIONS' pane shows a tree view of servers, with 'localhost <default> (root)' expanded to show databases, and 'library' selected. The 'SQLQuery_1 - localh... (root)' window shows the following SQL code:

```
1 INSERT INTO Supplier (Supplier_Id, Supplier_name, Book_supplied, Contact)
2 VALUES
3 (5001, 'ABC Publishers', 'The Great Gatsby', '403-321-0987'),
4 (5002, 'EduBooks Suppliers', 'Introduction to Algorithms', '403-654-3210'),
5 (5003, 'Global Books Inc.', 'To Kill a Mockingbird', '403-555-8888'),
6 (5004, 'Premium Publishers', 'The Da Vinci Code', '403-444-7777'),
7 (5005, 'HistoryPress', 'The History of Philosophy', '403-999-1234'),
8 (5006, 'Classic Publishers', 'The Lord of the Rings', '403-333-2222'),
9 (5007, 'Knopf Publishers', 'The Road', '403-111-3456'),
10 (5008, 'Simon & Schuster', 'Angels and Demons', '403-987-6543');
11 SELECT * FROM Supplier
```

The 'Results' pane shows the output of the query, displaying 8 rows of data:

	Supplier_Id	Supplier_name	Book_supplied	Contact
1	5001	ABC Publishers	The Great Gatsby	403-321-0987
2	5002	EduBooks Suppliers	Introduction to Algorithms	403-654-3210
3	5003	Global Books Inc.	To Kill a Mockingbird	403-555-8888
4	5004	Premium Publishers	The Da Vinci Code	403-444-7777
5	5005	HistoryPress	The History of Philosophy	403-999-1234
6	5006	Classic Publishers	The Lord of the Rings	403-333-2222
7	5007	Knopf Publishers	The Road	403-111-3456
8	5008	Simon & Schuster	Angels and Demons	403-987-6543

The status bar at the bottom indicates 'Ln 11, Col 1 (23 selected) Spaces: 2 UTF-8 CRLF 8 rows MySQL 00:00:01 localhost : library'.

Conclusion

The proposed structure of databases for the Central Library of Calgary is intended to enhance library operations, user experience, and resource management efficiency.

Overall, this database serves as the foundation for the library's aim of delivering accessible, structured, and efficient services to its users while being adaptive to future requirements and advancements in technology.

Contribution

Lucky Patel : Focused on reviced ER diagram and relationships

Jashanpreet : Contribute in table structure and data type

Harleen Kaur : Focused on mission statement and objectives

Chandrashekhar : Focused on database and Its correlation as well

Thank you

Developing the skill to provide constructive feedback is essential, and it's a distinct ability that needs nurturing. Participate actively in group discussions and provide valuable feedback on the presentations. Remember to assess your own performance in comparison to other groups at the end.

Criteria: Beginning [0-3]; Developing [4-6]; Accomplished [7-9]; Excellent [10]							
Group Number	Content clarity, organization and Delivery [0-10]	Table/entity identification [0-10]	Relevance of the attribute to the table [0-10]	Relationships and associations and their degree [0-10]	Database diagram [0-10]	Total Score [50]	Your written constructive feedback on the presenting group
G-1	9	9	9	9	9	45	Excellent presentation, full clarity and good explanation
G-2	8	8	7	8	9	40	Presentation was well delivered and addressed 70% of the instructor's question.
G-3	8	8	8	9	8	41	Good presentation , clear explanation , relevant to the point
G-4	7	8	8	7	6	36	All good but ER diagram is not clear.
G-5	8	9	8	5	7	37	ER diagram was not connected to its entities properly, Presentation went good.
G-6	8	8	8	9	9	42	Good topic with very well explanation .
